

## ONLINE COMPLIANCE LEARNING

### The Preventing Discrimination and Harassment Toolkit

We know from experience that learners are turned off by boring videos, irrelevant interactions, and memorizing laws. Our training starts with the laws, but goes beyond by teaching people how to behave toward others, and teaching how they can expect to be treated in return.

Our Preventing Discrimination and Harassment courses cover the core discrimination and harassment laws enforced by the EEOC, so you can feel confident that your team is well trained on appropriate behavior in the workplace. The invaluable lessons learned in these courses are crucial for promoting a working environment that is comfortable for everyone, where your employees are able to focus on doing their best work.
